

## ICT Level 2

I can plan and give instructions to make things happen and describe their affects. E.g. I can program a roamer and change it is it doesn't do what I wanted.

I can share my work in words, tables, pictures and sounds. E.g. I can write sentences in a word processor and add capital letters using the shift key if I forget them.

I can talk about how I use ICT inside and outside school. E.g. I can tell someone which websites I like to look at with an adult at home

I can gather information, enter into a program, save it and open it again later. E.g. I can enter data into a simple graphing program like handy graph or write sentences in Word, save them then open them in the next lesson.

I can describe what I've done and talk about what I could do differently next time. E.g. I can discuss a story I have written and think about how different pictures would make it more interesting.

Attainment strands: **finding things out**, **developing ideas and making things happen**, **exchanging and sharing information**, **reviewing, modifying and evaluating work as it progresses** and **breadth of study**
